

## Press Statement

**The undernoted statement was provided to the press 8/12/17 regarding Berkeley Street Bins.**

Glasgow West Enterprises Ltd, a subsidiary of Glasgow West Housing Association Ltd (GWHA) provides Factoring Services to the properties 213 to 227 Berkeley Street. The traditional tenement flats are mixed tenure comprising both GWHA rented and privately owned housing.

The recent move to kerb side location has been the result of an operational change by Glasgow City Council's Land & Environmental Services (LES). In the course of our established good working relationship with the local LES Waste Collection Team, we understand that the current footpath location is a proposed temporary arrangement, pending a formalised location. GWHA and Glasgow West Enterprises Ltd will continue to represent the interests of our service users seeking the optimum solution for the area within the scope of the services that are offered by GCC Land & Environmental Services.
