

SAFER HOMES PROJECT.

We recently launched the Safer Homes Initiative, a programme crafted to assist our clients and their customers in maintaining a secure home environment.

Centered around delivering information to the local community covering topics such as how to treat damp and mould in the home, staying safe from scammers, fire safety in the home and energy saving advice.

To learn more, please join us and Glasgow West HA, alongside Police Scotland, Scottish Fire & Rescue Service and Home Energy Scotland for a Safer Homes Session:

Friday 25th October, 11am - 1pm

The Pyramid at Anderston, 759 Argyle Street, Glasgow, G3 8DS
